

Dear Friends:

NEW RESEARCH HIGHLIGHTS

The More Common Divorce Is, the More Harmful it Is

The negative effects of parental divorce on children's education increases as divorce becomes more commonplace, perhaps because couples are more willing to break up low-conflict marriages, [report](#) Czech researchers at Masaryk University.

Father's Involvement Boosts Baby's Mental Development

Fathers who interact with their babies in an engaging, sensitive, and less controlling manner improve their baby's cognitive development, [according](#) to researchers at King's College London.

Fathers Can Offset Consequences of Maternal Depression

A strong father-child relationship can offset the negative consequences of maternal depression, [report](#) researchers at Bar-Ilan University.

NEW BLOG

Death and Rebirth of a Culture

The New York Times has a circulation of one million while Rush Limbaugh has an audience of 13.5 million listeners. Limbaugh devoted much time last week to a Vanity Fair Article on the hook-up culture among young professionals in New York City, a culture that is now driving women away from men of their own age. [Continue Reading...](#)
