

Dear Friends:

RECENT RESEARCH TO NOTE

Decrease in Sperm Count Raises Public Health Concerns

Sperm counts indicate a serious deterioration in male reproductive health. They have decreased continuously and significantly during the last 40 years among men from North America, Europe and Australia [according](#) to researchers at Hadassah-Hebrew University.

Health and Spirituality

Incorporating spirituality and religious considerations into modern medicine could significantly improve person-centered healthcare, [report](#) researchers at Harvard University. (Also learn more about the effects of religious practice on health on [Marripedia](#).)

NEW IN MARRIPEDIA

Update: Effects of Pornography on Adolescents

Viewing pornography increases sexual aggression, initiates early sexual activity, and increases the risk of mental health disorders. [Read the latest research highlights here...](#)

BLOG: Prenuptials for Indissoluble Marriages

“Divorce? Never. Murder? Maybe.” So said an Irish wife in her fifties back in 1986 when Ireland was debating divorce law. The dissolution of marriage was unthinkable for her generation, particularly for Catholics. “Prenups” were a waste of time and thought. Today is very different. [Continue Reading...](#)

With an eye to the child, the future of America,
