

Dear Friends:

[NEW RESEARCH HIGHLIGHTS](#)

Pornography Hurts Interpersonal Relationships

Viewing pornography decreases sexual and relationship satisfaction, particularly for males, [according](#) to a meta-analysis from Indiana University.

Positive Influence of Fathers

Fathers' involvement in newborn care and fathers' support for the newborn's mother decreases rates of infant colic, [report](#) researchers at Pennsylvania State University.

Less Sexual Intercourse among Americans

Americans today have less sexual intercourse than Americans in the 1990s because fewer adults have mated, and even those who have mated engage in less intercourse, [according](#) to a San Diego University study.

[NEW BLOG](#)

Who Guards the Guardians in the Social Sciences?

A [First Things article](#) berating pro-lifers for overstating the findings on abortion provoked this blog on free speech in the social sciences particularly regarding two-abortion related topics 1) abortion and breast cancer regarding which the First Things author incorrectly stated there is none, and 2) the effects of abortion on the mental health of the mother which the author correctly opined is often overstated by pro-lifers. [Continue Reading...](#)

With an eye to the child, the future of America,

Pat Fagan, Ph.D.
