

MARRI FINDINGS

ON FAITH & FAMILY

MAPPING AMERICA

Adolescents Who Have Had Four or More Sexual Partners by Family Structure

The probability of adolescents (aged 13 to 19) having had four or more sexual partners in the past year is least likely among those who were raised in intact families that attended religious services weekly or more. Read the full findings on our [website here](#).

NOTABLE RESEARCH - - FROM PEW RESEARCH

Major U.S. Metropolitan Areas Differ in Their Religious Profiles

“The religious face of America is largely a Christian one, with roughly seven-in-ten Americans belonging to that faith.” Yet some cities have very diverse religious profiles. Read the full [Fact Tank report here](#).

SOCIAL SCIENCE AND CHILD WELL-BEING

Kids Count... Marriage Counts.

“For children the first aspect of well-being is their family and whether it is intact or not. Nothing shapes a child’s destiny as it does.” [Read the entire post here](#).
